

Quantitative Business Methods

QBM-BU6006

Course Student Information

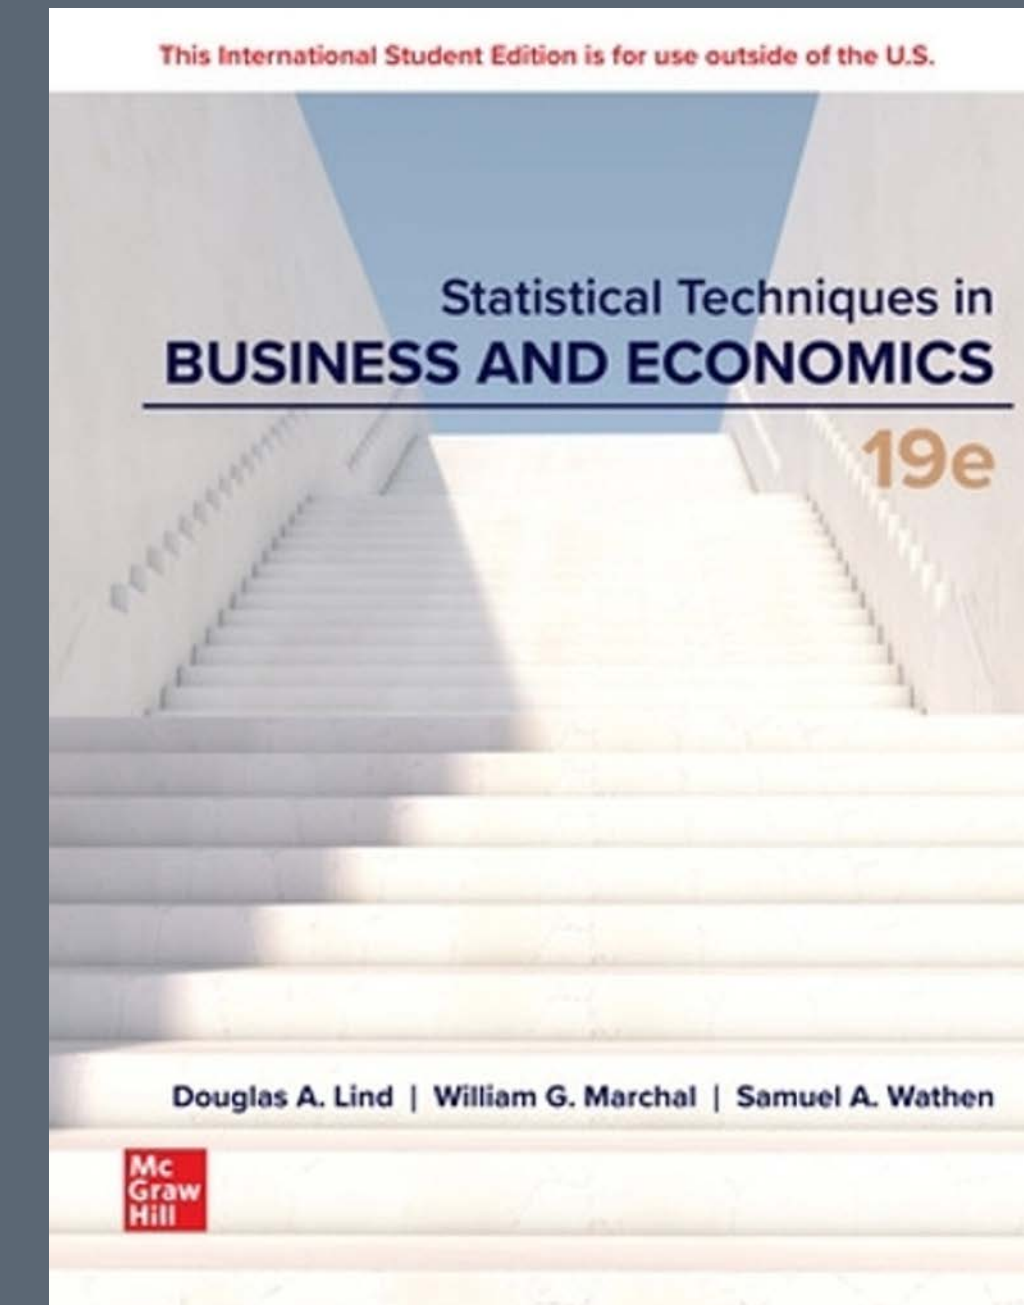

Course Aim

This course develops students' quantitative and analytical skills to apply statistical methods to real business and economic problems, covering descriptive and inferential statistics, relationships between variables, and forecasting. Students learn to identify patterns, evaluate relationships, and translate data into business insights, with an emphasis on ethical and responsible use of technology and AI in decision-making.

Resources Required

- Lind, D. A., Marchal, W. G., & Wathen, S. A. (2024), Statistical Techniques in Business and Economics, 19th ed. McGraw-Hill, New York, NY, [ISBN: 9781266283536].
- A standard scientific calculator (e.g Casio fx-991ES Plus)
- Access to McGraw Hill connect platform
- Access to Moodle course page
- Scientific notebook , Pen, Pencil, Ruler etc.

Resources Required

- **Purchasing and registering for McGraw Hill Connect is mandatory for this course.**
- **All course materials and learning resources will be available through the platform.**
- **The group project must be submitted through McGraw Hill Connect.**

Need Help with Registration or Purchase?

- Our Student Ambassadors, **Rawan and Samar**, are available to support you with registration and purchasing
- **Contact our Student Ambassadors:**
- **Rawan:** 202504541@student.polytechnic.bh
- **Samar:** 202505983@student.polytechnic.bh

Course Structure and Contact Hours

Each week we have 2 sessions each is 1 hour and 50 minutes long. For each hour in class, you are expected to spend 1 hour and a half in independent work outside of class.

Session content varies by chapter. Some sessions combine lecture and practice, while others focus on one or the other. For every session, students are expected to:

- Arrive on time
- Come prepared (e.g., have read the chapter and reviewed the Moodle materials)
- Actively engage by listening, participating, and taking notes
- Bring their textbook, calculators, notebook and equipment
- Engage actively by working together on applying concepts learned in lecture to solve given tasks
- Ask for help when in doubt

Weekly plan

- Weekly plan is available in Moodle
- [BU6006 Course Guide: Weekly Plan | Bahrain Polytechnic Moodle](#)

Assessments

- We have 3 Assessments during the course :

Name	Chapters Covered	Date	Weighted
Individual Project & presentation	ALL	Week 14	30%
Midterm	1-8	Week 8- Assessment week	30%
Final	9,10,12,13,14 &18	Week 17- Assessment Week	40%

Assessments

- To pass this course, the learner should achieve a minimum of 60%.
- The aggregated mark (Mid + Final+ Project) should not be lower than 60% and if it is less than 60, will lead to failure in the course.
- If you miss the midterm or the final, you have to submit a valid excuse to your tutor no later than 3 working days after the assessment. For medical excuses, a medical report (rather than a certificate) is required. Only approved cases will be allowed to take the make-up assessment.

Project:

- The project will be submitted in stages according to the schedule provided.
- Each part must be submitted by the specified deadline.
- Late submissions may result in grade deductions unless officially approved.
- Students are expected to show continuous progress throughout the semester.

Project:

- All work must be original. Copying, plagiarism, or submitting work that is not your own is strictly prohibited.
- If you experience any difficulty, please inform the instructor before the deadline.
- Please read the schedule carefully and plan your work accordingly.

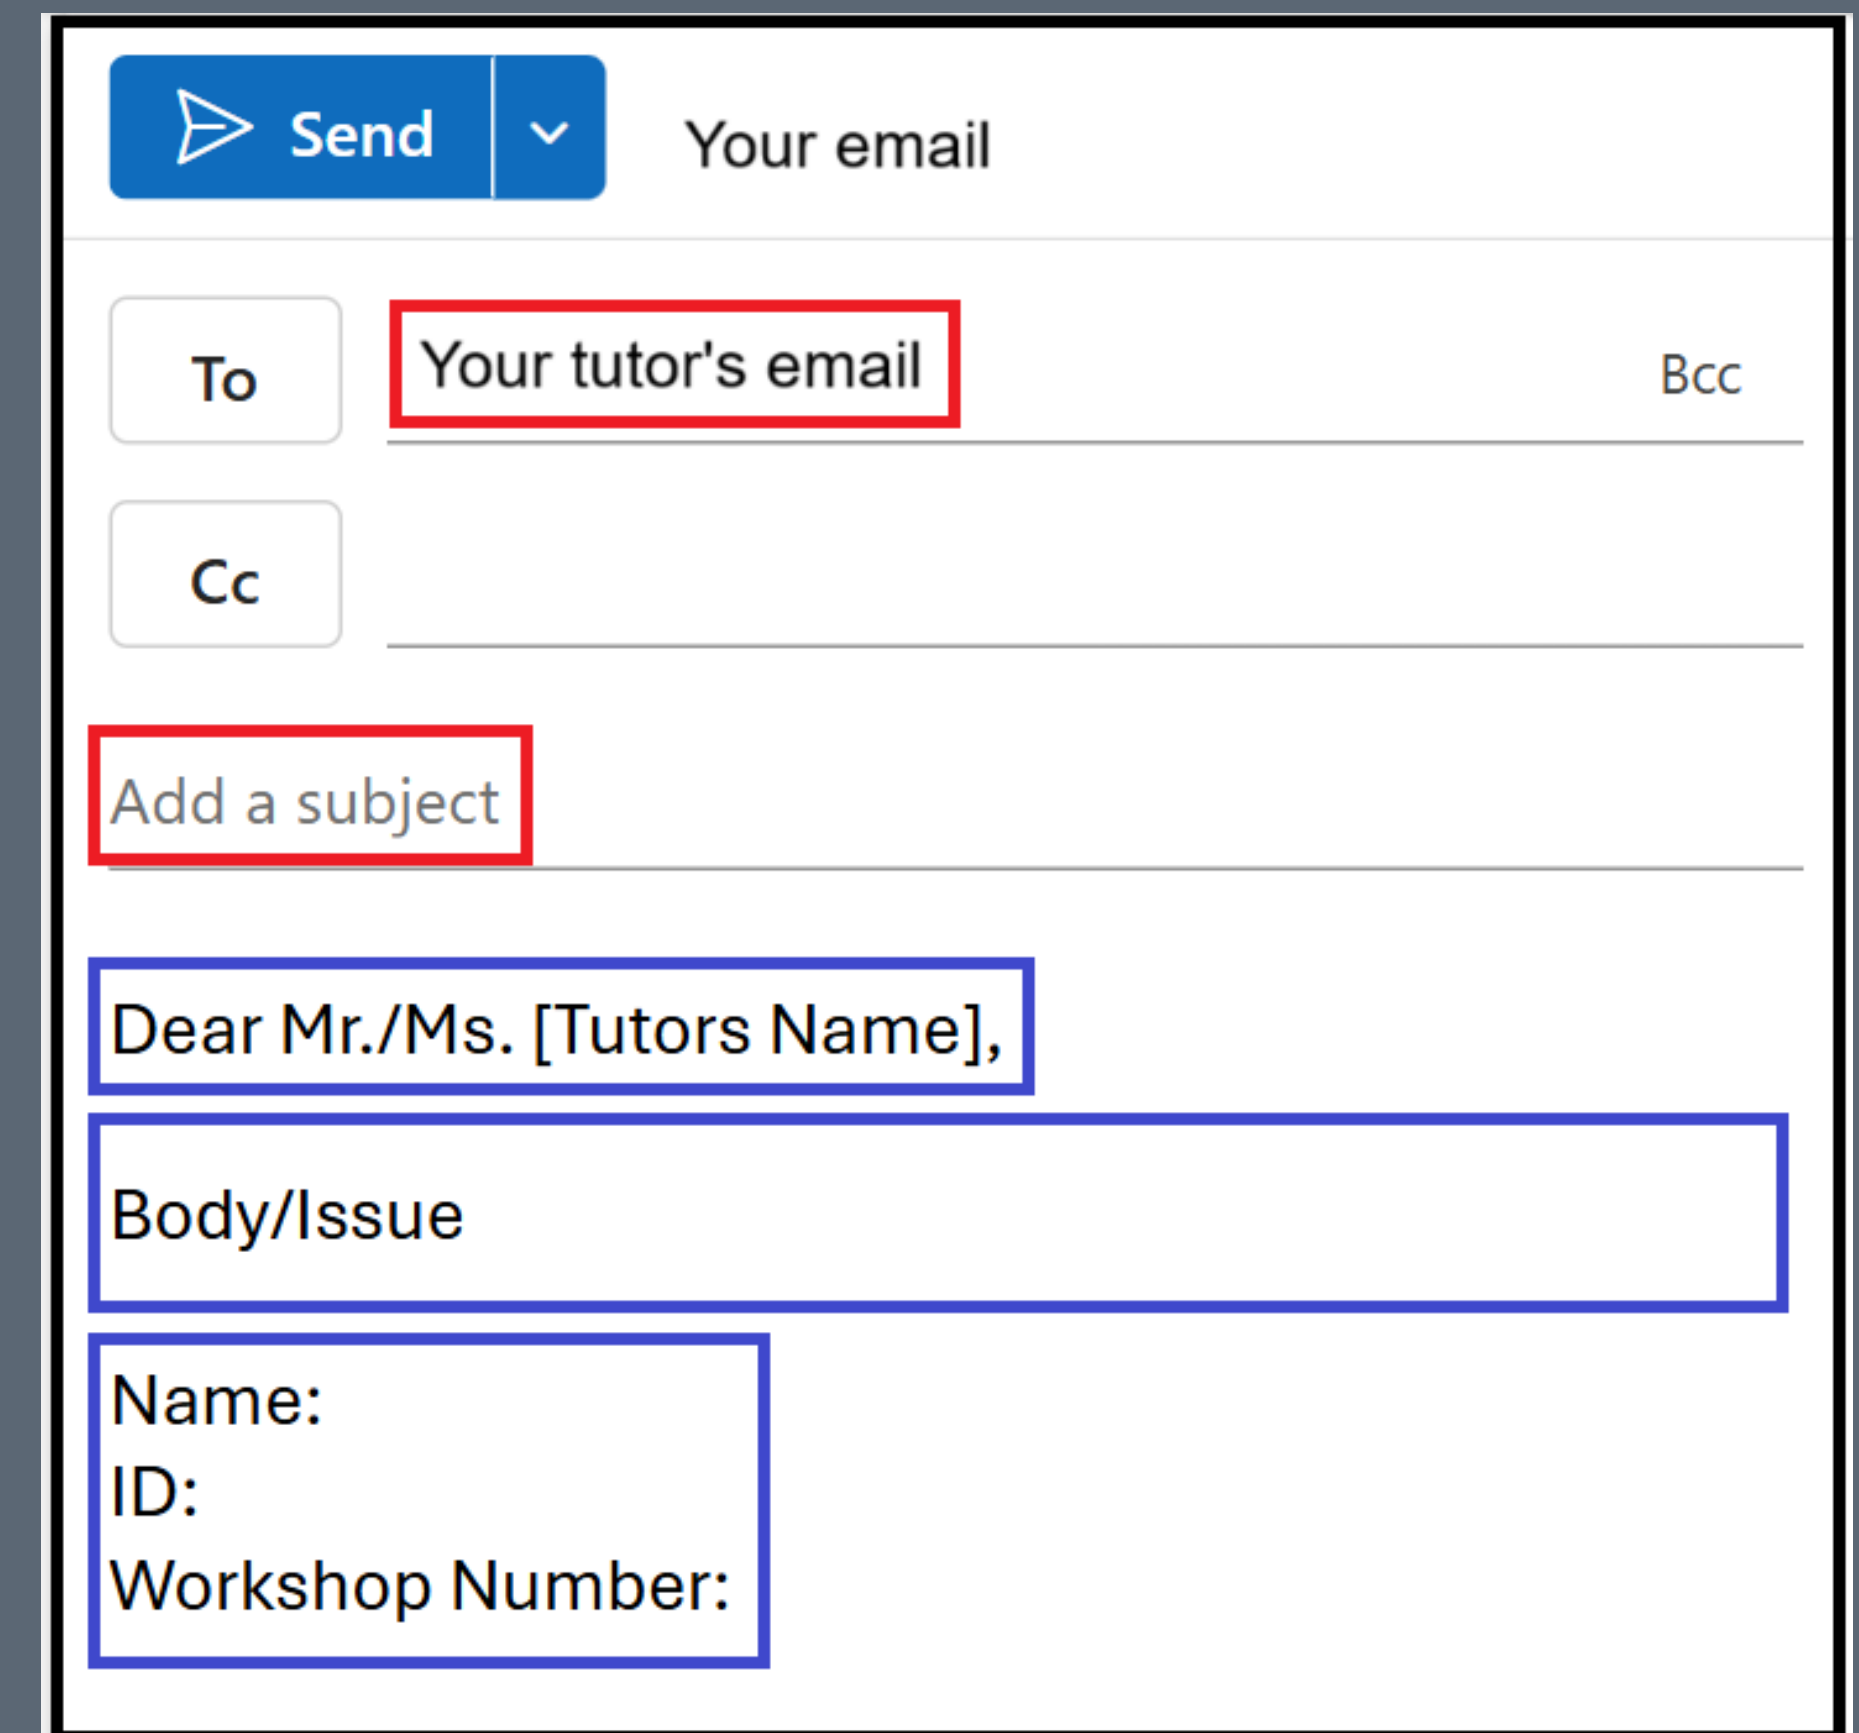

Attendance

- You are expected to attend every session of the course.
- Being late for more than 10 minutes or leaving the session early is considered a half-day absence.
- To pass the course you need to attend at least 75% of the course sessions.
- All absences will be recorded regardless of the excuse. You have 25% absence allowance to account for cases of sickness, death, car accident, etc.
- If your absence percentage exceeds 25%, you will automatically get withdrawn from the course and get a WA grade.

Communication and Etiquette

Communication:

- All communication must be made through your polytechnic email. Do not use personal emails (gmail or hotmail) to contact your tutor.
- Your email must include a short subject, your name, ID, and workshop number. Do not write the whole email in the subject line.
- You will receive important announcements throughout the semester on your polytechnic email. Make sure to check your email and the announcements page on Moodle regularly

The image shows a screenshot of an email composition interface. At the top, there is a blue 'Send' button with a paper plane icon and a dropdown arrow, followed by the text 'Your email'. Below this, there are three main sections: 'To', 'Cc', and 'Subject'. The 'To' field contains 'Your tutor's email' and is highlighted with a red border. The 'Cc' field is empty. The 'Subject' field contains 'Add a subject' and is also highlighted with a red border. Below the subject field, there is a blue-bordered box containing the text 'Dear Mr./Ms. [Tutors Name],'. Below this, there is another blue-bordered box containing the text 'Body/Issue'. At the bottom, there is a blue-bordered box containing the text 'Name:', 'ID:', and 'Workshop Number:'.

Communication and Etiquette

Student Etiquette:

Do ☒	Do not ☐
Discussions during solving problems	Side Talks or joking during lectures
Asking tutor questions	
Using your phone for: calculator, graphing, Moodle, etc.	Phone Calls or Social Media
Arriving on time & staying till end	Arriving late or leaving early
Completing all tasks required	Wasting time
Bringing notebook, stationery and calculator to every session	Coming emptyhanded

Thank you
